

Introducing Pristine Scope **Gen 2**

Brand new **disposable 4K scope**.
Every case. Every day.

Current Solution

\$100K+ capital expense for new equipment

\$\$\$ substantial service, repair, and maintenance expense

\$\$\$ costly 35 step sterilization process

PRISTINE **GEN 2**

\$0 capital expenses

\$0 service contracts

\$0 reprocessing expenses

Why disposable?

Conventional surgical visualization is complex, expensive, and difficult to maintain.

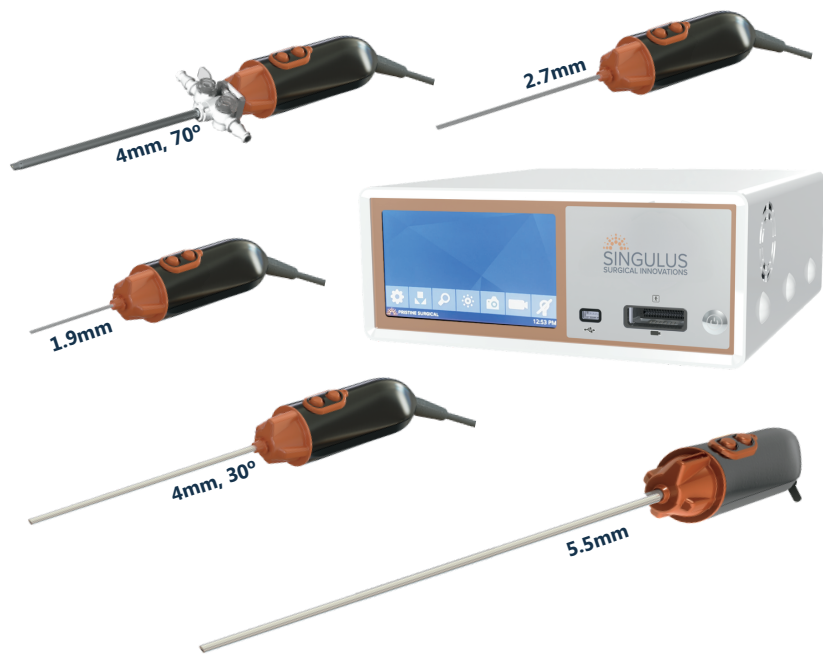

Contaminated scopes, unreliable light cables, and outdated camera systems compromise visualization and slow down the OR. The added burden of maintenance, repairs, and sterilization drives up cost and strains surgical efficiency.

No delays

No SPD required

No infection risk

No headaches

Coming soon our patented bendable scope

SKU	DESCRIPTION
89-10-5000	4K HDR System, Camera Control Unit with Integrated Display
89-10-5001	4K HDR System, Camera Control Unit
89-10-6036	4K Single Use Camera, 1.9mm, 30°, 60mm with Sheath Kit
89-10-6236	4K Single Use Camera, 2.7mm, 30°, 74mm with Sheath Kit
89-10-6436	4K Single Use Camera, 4.0mm, 30°, 175mm with Sheath Kit
89-10-6476	4K Single Use Camera, 4.0mm, 70°, 175mm with Sheath Kit
89-10-1500	4K HDR System Control Tablet

*Additional angles and extended lengths available
